

## Notice 30

The Hanley Notice 30 Savings Account is designed for customers who wish to use the many facilities offered by our branch offices and for those who would prefer to operate their account by post. The account gives you the choice of interest paid annually or monthly. The interest rate on the account is tiered and so the more you invest the higher the rate of return.

### Account terms & conditions

Before deciding to open an account please read the booklets:

- Information for Savers
- Saving with The Hanley

These set out the general terms and conditions applicable to our savings accounts and should be read in conjunction with the specific product terms and conditions within this product sheet.

### Investing in a Notice 30 Savings Account

You can open a Hanley Notice 30 Savings Account with as little as £100 and add to it as often as you like by cash, cheque or direct debit.

If you have £10,000 or more to invest you can choose to have your interest paid monthly to another bank, building society or to another Hanley savings account.

## Withdrawing from your Notice 30 Savings Account

- Keep at least £25,000 in your account and make a withdrawal on demand without penalty
- If your account balance falls below £25,000 then you will need to give us 30 days notice (written or verbal) and you can withdraw all or part of your balance without losing any interest
- Make a withdrawal on demand and lose only 30 days interest on the amount withdrawn.
- The minimum account balance following a withdrawal is £100

## Interest

The interest rate we pay is variable and may be changed

Interest is paid annually on 31 August or monthly on the last day of each month, and can be paid in one of the following ways:

- Adding to the account (annual interest only)
- Transfer to another Hanley savings account
- BACS transfer to another bank or building society account

If interest is paid monthly the gross rate on the account will be that which, if interest was compounded monthly, would be the nearest equivalent to the annual gross rate. Each month one twelfth of a year's interest is paid. For investments of less than one month, interest is calculated on a daily basis.
